

FOLLOW ME WHEELCHAIR

- *High Performance*
- *Safe to Use*
- *Easy to Implement*
- *Reliable*

Stop when
seat belt released

Stop when
you get out

Only Stop button
can be operated

Joystick is placed
at the back

Basic Function

Operator

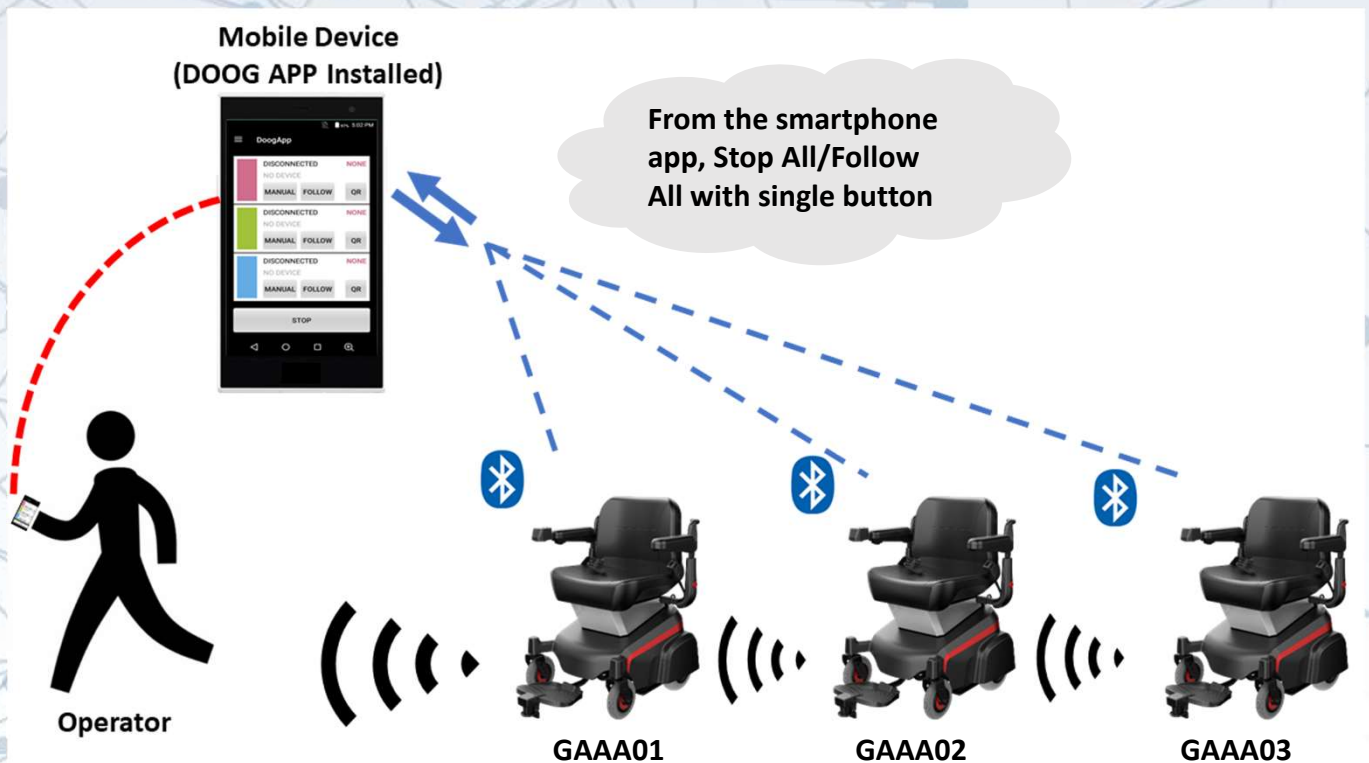

Automatically follow the operator

How It Works

Using wide angle sensor, with our original algorithm, Garoo can track the target

Specification	Garoo
Dimension	W 580mm x L 825mm
Seat Height	460 ~ 510mm (From ground)
Seat Width	460mm
Weight Capacity	100kg
Total Weight	40kg (w/o battery)
Motor	2 x DC24V, 120W, 4000rpm
Battery	Lead acid battery 12V, 20Ah * 2pcs
Sensing Coverage	Radius = 10m
Running Distance	10 ~ 15km
Max. Gradient	6 Degree

Operator can walk normally even in narrow passageway
